

Marketing and business leader with 5+ years driving acquisition, conversion, retention, and LTV for B2C brands and creator products. I build and scale go-to-market and lifecycle programs end-to-end—setting strategy, instrumenting measurement (GA4/GTM/BI), and running disciplined experimentation to improve CAC, CVR, and LTV. Comfortable owning pricing/packaging, e-commerce and subscription funnels, and multi-channel growth across Meta, TikTok, YouTube, and Google Ads. Known for clear briefs, workbacks, and cross-functional leadership that turn insights into fast, repeatable execution. I use modern tools—analytics, automation, and CRM—to remove friction and compound results.

EXPERIENCE

Founder, DISTRICT ENTERTAINMENT

Toronto, ON | June 2025 – Present

- Launched a Toronto electronic-music brand; sold out 1,000+ tickets and generated 200K+ cross-platform views on debut.
- Directed paid + organic across Reels/Shorts/TikTok/YouTube, iterating creatives to lift CTR/hold-rate; 5.8x ROAS on launch budget.
- Built GenAI content pipeline (Midjourney boards, Runway cut-downs, Kling teasers); standardized prompt libraries and QA SOPs.
- Secured sponsorship and packaged partner-ready narratives tying creative to commercial outcomes.
- Led a small creative pod (design/video); instituted weekly reviews, workbacks, and asset versioning for on-time delivery.

Marketing Director (Contract), METROHOMES GROUP

Toronto, ON | January 2023 – Present

- Owned multi-channel growth (Meta/YouTube/Google); managed \$20K/mo budget; achieved 40% CPL reduction with structured tests.
- Implemented GA4 + Tag Manager and Looker dashboards; improved lead attribution accuracy by 75%; instrumented CAC/LTV reads.
- Scaled social from 1K → 20K+ in 12 months; created brand-safe GenAI guidelines (safety, voice, disclosure) and trained design/copy/leadership.
- Built automated reporting and experiment logs; partnered cross-functionally to align campaigns, content systems, and customer experience.

Creative Design Specialist, DESIGNEDIT

Toronto, ON | August 2020 – January 2023

- Produced performance-minded creative; co-owned GTM with PMM/UX (landing narratives, ad concepts, short-form video).
- Built A/B testing frameworks for creative + LPs; +25% CTR; +28% conversion; contributed to +130% YoY traffic.
- Collaborated with product/UI on component naming and handoff; drove a 20% retention improvement via measurable UX updates.
- Built a modular Figma library and asset taxonomy (components, variants, tokenized styles) with a file-naming/hand-off SOP, reducing rework and speeding creative production cycles.
- Authored concise experiment readouts and stakeholder decks (Looker + Figma/Premiere mockups), turning results into prioritized creative briefs and a clear testing backlog.

EDUCATION

Postgraduate Certificate, Blockchain Development, George Brown College

Toronto, ON | September 2022 – September 2023

- Built full-stack dApps with MERN and Solidity smart contracts; integrated Web3 wallets for on-chain reads/writes.
- Implemented REST/GraphQL services with basic auth; versioned work in Git with lightweight CI for lint/test.
- Containerized apps with Docker/Compose and deployed to cloud; documented endpoints and runbooks for teammates.
- Worked in agile sprints with design/product; authored API specs and handoff docs that unblocked front-end delivery.

Bachelor of Technology - (BTech), Graphic Communication Management, Toronto Metropolitan University

Toronto, ON | September 2020 - September 2022

- Produced brand/packaging and marketing assets in Adobe Creative Cloud (Photoshop, Illustrator, InDesign, Premiere).
- Planned B2B/B2C campaigns end-to-end—messaging, channel mix, budgets—and built performance dashboards with clear KPIs.
- Prepared press-ready files and premedia workflows (color management, dielines, proofs); reduced rework via tight specs.
- Led a capstone launch plan for a new product: positioning, creative system, paid/owned rollout, and measurement framework.

SELECTED PROJECTS

- **AI Workflow Automation (personal R&D):** Exploring agentic automations that connect analytics, docs, and comms (e.g., GA4/ads, Sheets/Notion, Slack) to streamline research → brief → experiment → recap for niche businesses; scope intentionally evolving.
- **Music Producer Project:** Create and release electronic music and related content (primarily music) with FL Studio and Ableton; collaborate with local artists across visual, dance, and film mediums to develop performance assets and promo content.
