PROFESSIONAL SUMMARY

Full stack developer in Toronto who ships complete products from architecture to deployment. Built a 60fps canvas rendering engine with spring physics, a 35 route Next.js production site for a real client, an EdTech platform with 22 financial calculators, and a glassmorphism finance tracker. Background in design, marketing, and business strategy means I think about conversion, accessibility, and user experience as naturally as component architecture.

EXPERIENCE

Founder & Creative Director

June 2025 – Present

District Entertainment | Toronto, ON

- Sold out debut event (1,000+ tickets), generating \$15K+ revenue at 5.8x ROAS across Meta, TikTok, and YouTube campaigns.
- Built GenAI content pipeline (Midjourney, Runway, Kling) that drove 200K+ organic impressions.

Lead Developer & Growth Strategist

January 2023 – Present

Metrohomes Design Build | Toronto, ON

- Built 35 route Next.js production site solo: service pages, case studies, dual contact forms, Resend email, Google Places autocomplete, GA4.
- Scored 96 Accessibility / 100 Best Practices / 92 SEO on Lighthouse. Full ARIA, keyboard nav, WCAG contrast.
- Reduced CPL 40% on \$20K/mo ad budget; scaled social 1K to 20K+ followers; built Looker CAC/LTV dashboards.

Design Engineer & CRO Lead

August 2020 – January 2023

DesignedIT | Toronto, ON

- Drove +130% YoY traffic and +28% conversion lift through structured A/B testing on creative assets and landing pages.
- Built Figma component library with design tokens adopted by engineering; contributed to 20% retention improvement.

SKILLS

Languages & Frameworks: TypeScript, JavaScript, React, Next.js, Node.js, HTML, CSS, Tailwind CSS, Solidity

Tools & Infrastructure: Git, Docker, Vercel, Supabase, PostgreSQL, MongoDB, GA4, Looker

Design: Figma, Adobe Creative Cloud, Design Systems, Component Libraries

Marketing & Analytics: Google Ads, Meta Ads, A/B Testing, SEO, CRO, GenAI Pipelines

PROJECTS

OCRA — Deep Work Productivity App

React, TypeScript, Zustand, Canvas API, Supabase, Playwright

A canvas based productivity app with spring physics, immersive focus mode, habits/goals, and cloud sync.

MortgageMate — Mortgage Education Companion

React, TypeScript, Tailwind CSS, Recharts, IndexedDB, Vite

An interactive learning platform with 22 financial calculators, quiz engine, spaced repetition flashcards, and analytics dashboard.

Metrohomes Design Build — Construction Company Website

Next.js 16, TypeScript, Tailwind CSS v4, react-hook-form, Resend, GA4

A production website for a Toronto design build firm with 35 routes, dual mode contact forms, transactional email, and a 12 color design system.

BudgetLens — Personal Budget Tracker

React, TypeScript, Tailwind CSS, Recharts, IndexedDB

A privacy first personal finance tracker with glassmorphism UI, interactive charts, and pattern detection.

EDUCATION

Postgraduate Certificate, Blockchain Development

Sep 2022 – Sep 2023

George Brown College

- Built full stack dApps with MERN stack and Solidity smart contracts.
- Designed REST and GraphQL APIs with JWT auth; deployed with Docker Compose.

BTech, Graphic Communication Management

Sep 2020 – Sep 2022

Toronto Metropolitan University

- Produced brand identity and marketing assets at production quality using Adobe Creative Cloud.
- Led capstone product launch with positioning strategy, creative system, and measurement framework.
